PLEASURE NETWORK

Mission

Putting the **needs of creators** first and foremost, Pleasure Network is creating **safe and inclusive** adult platforms, all powered by **Pleasure Coin (\$NSFW)**.

Pleasure platforms maximize the “creator to fan experience” with **fresh, innovative tools** that are designed to promote **meaningful interaction**. Fans will have direct connection with their favorite models through exclusive platforms, allowing creators and users to **unite**, all within a safe and entertainer driven ecosystem. Many platforms, one coin fueling them all!

Utilizing **Pleasure Coin (\$NSFW)**

The Problem

Since inception, the adult industry has consistently pioneered innovative solutions, being responsible for the mass adoption of new technologies...

The adult industry pushed adoption from VHS to Blu-ray to internet streaming, however as centralized web 2.0 solutions enter the market, adult creators are still reliant on traditional payment processors. This forces creators to be beholden to traditional banking solutions, incurring high fees, chargebacks, payment cancellations, and account closures.

The adult industry has grown from studio-controlled content to creator-controlled content. However, the payment options for creator-controlled content are still controlled and dictated by large corporations.

Pleasure Network aims to achieve true individual content creator control of their content and payment, by utilizing the \$NSFW token across the decentralized Pleasure Network platforms.

The Solution: **Pleasure Coin**

A **utility token**, usable within an ecosystem of creator focused applications.

The power of **\$NSFW** utilized within Pleasure Network's Web3 ecosystem will ensure content creators are **compensated** for their content, **without the risk** of chargebacks or frozen accounts.

This also provides the **users** of Pleasure Network's platforms a level of **anonymity** and **freedom** in supporting their favorite creators, without releasing personally identifying information, creating a **safe and secure** ecosystem.

With the **\$NSFW** token powering all of Pleasure Network's current and future adult platforms, we are building a fully **self-sustaining adult ecosystem**. While offering content creators better or greater control over their content and users more anonymity as well as security in supporting their favorite creators.

Social: Pleasurely

Pleasure Network is bringing together the **finest features** from existing platforms, creating a **new and innovative** way for fans and creators to connect in the present time. **Pleasurely.com** is the go-to platform for fans and creators to interact, share content, and drive utility to the token.

Payments

All payments on the platform will be in \$NSFW, driving the ultimate utility to the token as well as ensuring that content creators are paid without chargeback.

Why Polygon Network?

The Polygon chain was chosen for our main contract due to its **low** transaction fees and **fast** transaction **speed**.

These **processing speeds** go up to 65,000 TPS (transactions per second), which tops VISA and Mastercard, added in with **extremely fast** block finalization of **less than 2 seconds**. This makes **Polygon** the perfect Layer 2 scaling solution for the Pleasure Network to **operate** and **flourish** in.
